

TRUST 2012

Call for Participation & Call for Posters

5th International Conference on Trust and Trustworthy Computing

13-15 June 2012, Vienna, Austria

<http://trust.sba-research.org>

It is our great pleasure to invite you to participate in the upcoming TRUST conference.

Call for Participation

TRUST 2012 focuses on the technical and socio-economic aspects of trustworthy infrastructures. It provides an excellent interdisciplinary forum for researchers, practitioners, and decision makers to explore new ideas and discuss experiences in building, designing, using and understanding trustworthy computing systems. Building on the success of TRUST 2011 (held in Pittsburgh, USA), TRUST 2010 (held in Berlin, Germany), TRUST 2009 (held in Oxford, UK) and TRUST 2008 (held in Villach, Austria), the conference focuses on trusted and trustworthy computing, both from the technical and social perspectives. The conference itself has two main strands, one devoted to technical aspects and one devoted to the socio-economic aspects of trusted computing.

Besides technical contributions, TRUST will feature three invited talks, given by

- **Sarah Spiekermann**, Vienna University of Economics and Business
- **Thomas A. Henzinger**, IST Austria
- **Mukund Gunti**, VMWare

Furthermore, the conference will host a panel discussion on "Future challenges of trust in mobile and embedded devices".

Call for Posters

TRUST 2012 will feature a poster session that aims at rapid dissemination of latest research results. Authors are invited to submit a concise description of new research ideas and on-going projects to the Poster Track of TRUST 2012. The poster track is intended to provide a venue for research that is not mature enough to warrant a full paper but which would be of interest to the general community. We particularly encourage Ph.D. students to present their ongoing work.

We encourage submissions from all research areas relevant mentioned in the call for papers of TRUST, such as information security, trusted computing, trustworthy infrastructures and usability of security. Submissions should be no longer than 4 pages in Springer LNCS format. Authors of accepted posters will be expected to be present at their posters during the poster session of TRUST to discuss their work and answer questions.

Deadline for poster submissions: **May 4, 2012**

Notification of paper acceptance: **May 13, 2012**

More information can be found on the conference homepage:

General Chairs

- Edgar Weippl (Vienna University of Technology and SBA Research, Austria)
- Stefan Katzenbeisser (TU Darmstadt, Germany)

Program Chairs (Technical Strand)

- Mike Reiter (University of North Carolina, USA)
- Xinwen Zhang (Huawei, USA)

Program Committee (Technical Strand)

- Srdjan Capkun (ETHZ Zurich, Switzerland)
- Haibo Chen (Fudan University, China)
- Xuhua Ding (Singapore Management University, Singapore)
- Jan-Erik Ekberg (Nokia Research Center)
- Cedric Fournet (Microsoft Research, UK)
- Michael Franz (UC Irvine, US)
- Tal Garfinkel (VMWare)
- Trent Jaeger (Penn State University, US)
- Xuxian Jiang (NCSU, US)
- Apu Kapadia (Indiana University, US)
- Jiangtao Li (Intel Labs)
- Peter Loscocco (NSA, US)
- Heiko Mantel (TU Darmstadt, Germany)
- Jonathan McCune (Carnegie Mellon University, US)
- Bryan Parno (Microsoft Research, UK)
- Reiner Sailer (IBM Research, US)
- Matthias Schunter (IBM Zurich, Switzerland)
- Jean-Pierre Seifert (DT-Lab, Germany)
- Elaine Shi (PARC, US)
- Sean Smith (Dartmouth College, US)
- Christian Stueble (Sirrix AG, Germany)
- Edward Suh (Cornell University, US)
- Neeraj Suri (TU Darmstadt, Germany)
- Jesse Walker (Intel Labs)
- Andrew Warfield (University of British Columbia, Canada)

Publicity Chair:

- Marcel Winandy (Ruhr-University Bochum, Germany)

Program Chairs (Socio-economic Strand)

- L. Jean Camp (Indiana University, USA)
- Melanie Volkamer (TU Darmstadt and CASED, Germany)

Program Committee (Socio-economic Strand)

- Alexander De Luca (University of Munich, Germany)
- Angela Sasse (University College London, UK)
- Artemios G. Voyiatzis (Industrial Systems Institute/ATHENA R.C, Greece)
- Eleni Kosta (Katholieke Universiteit Leuven, Belgium)
- Gabriele Lenzini (University of Luxembourg, Luxembourg)
- Guenther Pernul (Regensburg University, Germany)
- Heather Lipford (University of North Carolina at Charlotte, US)
- Ian Brown (University of Oxford, UK)
- Jeff Yan (Newcastle University, UK)
- Kristiina Karvonen (Helsinki Institute for Information Technology, Finland)
- Mario Cagalj (University of Split, Croatia)
- Mikko Siponen (University of OULU, Finland)
- Pam Briggs (Northumbria University, UK)
- Peter Buxmann (TU Darmstadt, Germany)
- Peter Y A Ryan (University of Luxembourg, Luxembourg)
- Randi Markussen (University of Copenhagen, Denmark)
- Simone Fischer-Huebner (Karlstad University, Sweden)
- Sonia Chiasson (Carleton University, Canada)
- Stefano Zanero (Politecnico di Milano, Italy)
- Sven Dietrich (Stevens Institute of Technology, US)
- Tara Whalen (Carleton University, Canada)
- Yolanta Beres (HP Labs, US)
- Yang Wang (Carnegie Mellon University, US)
