This is the last two "Urgent" messages as replies. The header is pretty much the same as the others:

Dear ****,

Thank you for your reply.

I think there must be some misunderstanding here. We do contact the speakers on the list. And at the very beginning they said that they are interested in joining this event so we updated his info on the program. It is really our mistake for not updating the program in time. However, we are finalizing the program these day and we will renew the program ASAP. I sincerely hope you may understand this issue.

Please don't hesitate to contact me for any more queries.

Best regards,

Emma

I will not be attending. You have mislead me by listing speakers who are not attending. This is dishonest and unethical. I will share this experience with my colleagues and discourage them from attending your conferences. Please remove me from your lists and do not contact me further.
